Receipts_And_Expenses_Detail_2009

				NOTE BALANCE RESET: 6/15/2009 meeting minutes state that: "Due to [the previous Treasurer's] absence and unreachability for a number of months, based on rules in the bylaws, he has abdicated his position . . ." A new treasurer was nominated. The new treasurer took the remaining balance, and, together with LUGOD's President, deposited the money into a new bank account with the Golden 1 Credit Union. At the same time, the new treasurer started tracking all income/expenses in a ledger available on LUGOD's website. From this ledger, it is clear that the check from the previous treasurer was for \$862.40. Per credit union rules, a savings account with a minimum of \$1 was required to have a checking account, and there was a \$1 fee to open the savings account. The ledger indicates that on 9/2/2009, of the \$862.40 balance provided by the previous treasurer, \$1.00 was placed into savings. An additional \$1.00 was used to cover the \$1.00 fee for opening the savings account. The remaining \$860.40 was deposited into a checking account for LUGOD. The ledger indicates that on 9/4/2009, \$152.03 in outstanding contributions was deposited into the account. (As the previous treasurer had been absent and unreachable for months (as noted in the 6/15/2009 meeting minutes), the President had been holding onto the outstanding undeposited balances in the interim. The ledger indicates, that as of 9/4/2009, LUGOD's balance was \$1,013.43. This consists of: \$862.40 provided by the previous treasurer as the full balance of LUGOD's bank account. \$152.03 provided by the President as outstanding contributions. This is \$1,014.43 in total contributions. Minus \$1.00 for the fee for opening the new savings account at the Golden 1 Credit Union. It is noted in the ledger, that, of the \$1,013.43, \$1.00 is in the savings account (the minimum required for an account) and the remaining \$1,012.43 is in checking. As \$1,764.52 - \$1,014.43 = \$750.09, creating an "unknown derived expense" of \$750.09 to reflect the new balances. As there are no available records describing these expenses, there is no way to itemize them – as noted in the 6/15/2009 meeting minutes, the "absence and unreachability" of the previous treasurer for several months is the primary reason a new treasurer was elected, and tasked with getting things back in order. From this point forward (as of this writing) the new treasurer has kept up-to-date records of all income and expenses in the ledgers, publicly available on LUGOD's website.

				NOTE: The meeting minutes for the 9/2/2003 meeting state the balance is \$2,079.40. The difference between \$2,079.40 - \$2,019.72 = \$59.68. Lacking any other additional information, creating this "unknown derived expense" to "effectively" reset the balance back to the \$2,079.40 stated in the 9/2/2003 meeting minutes.	
Unknown derived collection	\$59.68		Other income		\$2,028.88
				NOTE: BALANCE RESET to \$2,079.40, as the meeting minutes state that this is the exact amount in LUGOD's bank account following collections at this meeting. This actually isn't too bad, all things considered. As the last recorded balance was on 4/12/2002, stated as "Books we balanced as of January, . . . Our current balance is approx. \$600." Assuming EXACTLY (and the meeting minutes say "approx." \$600) on 4/12/2002, an accounting of all the income and expenses noted in the meeting minutes from 4/12/2002 – 9/2/2003 suggests a balance of \$2,064.72, which is off from the stated balance by only -\$14.68 (\$2,064.72 - \$2,079.40). While there COULD conceivably been more income/expenses which were not recorded, a difference of < \$15.00 suggests the records (including expenses) MAY be fairly accurate.

12/04/2002				NOTE: The meeting minutes for this meeting state: "Books we balanced as of January, . . . Our current balance is approx. \$600." It would appear there were significant expenses which were not documented in the meeting minutes. It appears as if most collections/income were tracked in the meeting minutes, but expenses generally were not itemized. As there is no way to determine EXACTLY how much "approximately \$600" actually was at this time, resetting the account balance to \$600.00, which is the only "documented" figure we have. Stating that the above \$1,053.65 "unknown derived expense" is "invented" for the sole purpose of "resetting" the balance to the \$600.00. The records (certainly of expenses!) are incomplete; this is a "best-effort" attempt to account for what is stated in the documentation/meeting minutes which do exist.	\$600.00

Recording the transaction as income because CafePress says it was sent, and creating an unknown derived transaction to account for the fact that there is no record of the check being received.	\$1,029.98
Unknown derived expense			\$10.06	Other expense	Information from CafePress states that a check for \$10.06 for sales of LUGOD-related merchandise was sent 8/1/2002. As there is no record of this check in the previous Treasurer's ledger, it appears this check was never received. CafePress sent the check to a P.O. Box which used to belong to LUGOD, but which at some point, was decommissioned. We cannot be sure of the timing of the check/closing of the P.O. Box. 				<p>NOTE: The meeting minutes for the 11/30/2000 meeting state: "We currently have a balance of \$497.36, not including coin change, which needs to be rolled." It would appear there were significant expenses which were not documented in the meeting minutes. It seems highly unlikely that the balance of \$1,003.19 is in change, so assuming there are significant expenses not accounted for in the meeting minutes. Lacking any other additional information, creating this "unknown derived expense" to "effectively" reset the balance back to the \$497.36 stated in the 11/30/2000 meeting minutes. Assuming this is really a number of expenses which were simply not documented in the meeting minutes, and the balance stated as \$497.36 plus "coin change" is the only information indicating such expenses.</p>

It would appear there were significant expenses which were not documented in the meeting minutes. It seems highly unlikely that the balance of \$1,003.19 is in change, so assuming there are significant expenses not accounted for in the meeting minutes. As there is no way to determine how much "coin change" there was at this time, resetting the account balance to \$497.36, which is the only "documented" figure we have. Stating that the above \$1,003.19 "unknown derived expense" is "invented" for the sole purpose of "resetting" the balance to the \$497.36. Since there is no way to determine how much "coin change" there is, and \$497.36 is the only recorded number, assuming a \$1,003.19 derived expense, bringing the balance to \$497.36, and a \$0.00 amount of coin change. The records (certainly of expenses!) are incomplete; this is a "best-effort" attempt to account for what is stated in the documentation/meeting minutes which do exist.</p>		\$497.36

There is no mention of the actual amount collected in this meeting, or past meetings since 5/31/1999, but it is noted that, as of the 7/23/1999 meeting, the balance is \$210.00. "Assuming" the difference of \$73.20 was collected at this meeting.	\$210.00

Unknown derived collection	\$24.80		Other income	"Derived" collection from meeting minutes as follows: 8/9/1999 meeting minutes state "After dues, we have \$228." 8/24/1999 meeting minutes state \$27.50 was collected, no total balance stated. Total balance assumed to be \$228 + \$27.50 = \$255.50. 9/6/1999 meeting minutes state \$27.50 was collected, which would bring the balance to: \$255.50 + \$27.50 = \$283.00 However, the 9/6/1999 meeting minutes state "We collected \$27.50 . . . Account now holds \$307.80." As this total balance is specific down to the penny, assuming there is an unaccounted for collection of \$24.80 between 8/24/1999 and 9/6/1999, as \$307.80 - \$283.00 = \$24.80.	\$280.30

Unknown derived expense		\$48.25	Other expense	"Derived" expense from meeting minutes as follows: 9/6/1999 meeting minutes indicate a balance of \$307.80. 9/21/1999 meeting minutes state \$26.33 was collected, which would bring the balance to: \$307.80 + \$26.33 = \$334.13. However, the 9/21/1999 meeting minutes state that the total balance is \$285.88. As this total balance is specific down to the penny, assuming there is an unaccounted for expense of \$48.25 between 9/6/1999 and 9/21/1999, as \$334.13 - \$285.88 = \$48.25.	\$259.55

				meeting minutes as follows: 10/4/1999 meeting minutes indicate a balance of \$333.88. 10/19/1999 meeting minutes state \$24.70 was collected, which would bring the balance to: \$333.88 + \$24.70 = \$358.58. However, the 10/19/1999 meeting minutes state that the total balance is \$208.83. As this total balance is specific down to the penny, assuming there is an unaccounted for expense of \$21.92 between 10/4/1999 and 10/19/1999, as \$358.58 - \$208.83 = \$149.75. It seems likely this expense results from LUGOD applying for Federal Tax Exempt status: 8/9/1999 meeting minutes indicate that the group was planning on applying for Federal Tax Exempt status, and notes the cost as \$150.00. 10/19/1999 meeting minutes indicate that LUGOD has received it's Employee Identification Number (EIN), and that the IRS Form 1024 (exemption form) was sent at the same time as the request for an EIN.

19/10/1999	\$24.70		Membership income	Membership contributions	\$208.83
				Note: There appears to be a 1 cent typo in the meeting minutes. Based on availability of information (see below), assuming actual amount collected was \$61.24, not \$61.25. 10/19/1999 meeting minutes indicate a balance of \$208.83. 11/1/1999 meeting minutes state \$61.25 was collected, which would bring the balance to: \$270.08. However, the 11/1/1999 meeting minutes state that the total balance is \$270.07. The meeting minutes from the next meeting, 11/16/1999, indicate that \$35.40 was collected on 11/16/1999, and that the total balance is now \$305.07. As this is consistent with a balance of \$270.07 on 11/1/999, and a collection of \$35.40 on 11/16/1999, assuming the \$270.07 balance stated is correct as of 11/1/1999.

				meeting minutes as follows: 11/16/1999 meeting minutes indicate a balance of \$305.47. 12/6/1999 meeting minutes state \$22.00 was collected, which would bring the balance to: \$305.47 + \$22.00 = \$327.47. However, the 12/06/1999 meeting minutes state that the total balance is \$359.48. As this total balance is specific down to the penny, assuming there is an unaccounted for collection of \$32.01 between 11/16/1999 and 12/06/1999, as \$359.48 - \$327.47 = \$32.01.
