

Linux Users' Group of Davis

presents:

20th Anniversary Party

Fun and Games and Pizza

21st January 2019

7pm - 9pm at Woodstocks Pizza, G Street

We've been around for twenty years, and still having fun!

Come and join us to help us celebrate a score of years of open-source software support, advocacy and activism, as we chat, eat pizza and play geeky games.

What is LUGOD?

We advocate for and support free, open-source software solutions, including the Linux operating system. We have two monthly meetings; a social meeting at 7pm on the first Tuesday of the month, and a general meeting (a presentation, demo or discussion of a topic) each third Monday. Full details are listed on our website.
