The *Linux Users' Group of Davis* presents:

JRuby
100% Pure-Java Implementation of the **Ruby** Programming Language.

Monday December 21, 2009 7pm – 9pm	Explorit Science Center 3141 5th Street Davis, CA 95616

JRuby is a **Java** implementation of the **Ruby** programming language. JRuby is tightly integrated with Java to allow the embedding of the interpreter into any Java application with full two-way access between the Java and the Ruby code.

Free & open to the public!
