

# The Linux Users' Group of Davis presents: Ramona Howard of Spectsoft **Rave disk drive recorders**

Rave" is an uncompressed video and data solution used for feature film and television.

It is a turnkey, frame based, line of disk recorders that supports the full gamut of video resolutions.

Rave products are Linux-based, and designed to sit in any environment and play nicely with Macs or PCs.

**Monday, February 16  
7pm - 9pm**

**Davis Public Library  
315 East 14th Street**

**Free, open to the public**
