

The *Linux Users' Group of Davis* presents:

Monday
September 21, 2009
7pm – 9pm

Explorit Science Center
3141 5th Street
Davis, CA 95616

Founded in July 2008, *BerkeleyTIP* is a group dedicated to free software, hardware & culture. It holds in-person meetings in Berkeley, while simultaneously providing global access to meetings via online text chat (IRC) and audio conference calling (VoIP).

John will tele-present from Berkeley to talk about the technical and organizational hurdles required to run global, internet-based events, as well as share stories about *BTIP* and how it differs from a typical computer club.

Free & open to the public!
