

The *Linux Users' Group of Davis* presents:

Monday  
May 17, 2010  
7pm - 9pm

Explorit Science Center  
3141 5<sup>th</sup> Street  
Davis, CA 95616

**μClinux** ("MicroController Linux") began as a fork of the Linux kernel for microcontrollers and embedded systems which lack memory management units (MMUs). It allows Linux to support numerous embedded architectures, including ARM, Motorola 68000, Hitachi H8, MIPS and others.

**JK microsystems** of Davis specializes in DOS-based single board computers and ARM Linux microcontrollers for data acquisition, industrial control and networking.

*Free & open to the public!*
