

The *Linux Users' Group of Davis* presents:

An Introduction to IPv6 Socket Programming

Monday
February 21, 2011
7pm - 9pm

Explorit Nature Center
3141 5th Street
Davis, CA 95616

An introduction to porting applications from IPv4-only to IPv4/IPv6 dual-stack with working code example.

Owen DeLong is an IPv6 Evangelist at [Hurricane Electric](#), the leading IPv6 Provider. He is also a member of the [ARIN](#) Advisory Council. He brings over 20 years of experience in TCP/IP networking and UNIX systems administration. In addition, he is also an Open Water SCUBA Instructor, a Commercial Pilot, and holds a level 2 High Power Rocketry certification.
